RIPLEY CROSSING

A Leader in PAC Rehabilitation

Ripley Crossing is a non-profit, vibrant senior living community. Wing 5 offers private rooms, gym, lobby, dining room, and nursing area. The rooms also include cable TV and local phone service. Wing 5 also has its own parking lot and entrance. The wing is designed for many types of needs: i.e. dependent, independent, and short term such as recovery from surgery or after a possible joint replacement. Our 1,000 square foot gym is home to numerous amounts of the latest therapy equipment and programs.

Rapid Recovery at Ripley Crossing

is a specialized post-acute rehabilitation center designed to help you quickly and successfully achieve your recovery goals after surgery or hospitalization. Our highly skilled team is comprised of therapists, nurses, care navigators and doctors to help you reach your maximum potential.

Rapid Recovery Clinical Programs:

- Bone & Joint Recovery
- Fractures
- Sprains & Strains
- Cardiac Conditions
- Cardiopulmonary
- Respiratory
- Stroke/CVA Recovery
- Pain Management
- Neurological Conditions

*We are chosen Orthopedic Partners
with local hospitals.*

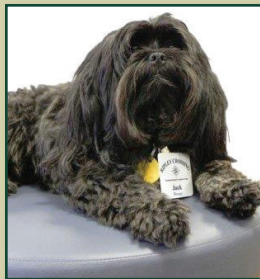

Our Program Includes:

- Private Rehabilitation Rooms
- 24-hr Skilled Nursing Care
- Physical, Occupational, and Speech Therapy available 7 days a week
- Inpatient/Outpatient Therapy
- Physician-approved Clinical Pathways
- Rehab Technology to reduce pain, inflammation and speed healing
- 1,000 square foot Therapy Gym with home simulation kitchen and bathroom
- One on One Therapy

Transportation for our Guest:

- From the hospital to our specialized post-acute center
- To and from doctor appointments

Rehab Mascot:

- Jack Alvarez
(Maltesel Shih Tzu poodle)

On Site RN Clinical Care Coordinator

In order to help you achieve your recovery goals, we understand that the first 72 hours are the most critical for optimal success. That is why from day 1, our RN Clinical Care Coordinator is working together with your doctor every step of the way to provide daily oversight and goal achievement for a rapid discharge to home.

- Quick start of therapy within 24 hours or less
- Each guest is assigned a RN Clinical Care Coordinator to navigate and ensure a successful home transition
- 48-hour Rapid Recovery rehab guest meeting
- Daily goal and progress monitoring

Care Connect - Care That Follows You Home

Before returning home, our therapy and nursing team will provide home safety tips and prevention strategies. A member of our therapy team may perform a home visit to make modifications and recommendations before your discharge. Additionally, our care team and RN Clinical

Coordinator will perform the following to make your transition home easy:

- Schedule follow up doctor(s) appointment or labs
- Coordinate home health services
- Coordinate durable medical equipment
- Review and fully explain medication
- Patient and caregiver training
- Regular follow up calls and any on-site visits

Meds to Home Program

What will the pharmacy do for you?

- Dispense a 30 day supply of medicine and convenient packaging for you to use at home
- Bill insurance and obtain insurance approval if necessary
- Provide your regular doctor a summary of medications you have been receiving while at Ripley Crossing
- Explain your medications and answer any questions you have about your medicine
- Update your medication list and med pack if changes occur after you are discharged
- Dispose of any medications you no longer need
- Call you once each week to discuss your medications

Outpatient Therapy

Outpatient therapy is available for individuals that may require additional therapy after returning home. Our therapy center offers flexible appointment scheduling, convenient entrance, parking and the opportunity to continue your progress with the same therapist. Outpatient therapy is covered by Medicare Part B and other private insurance programs.
